No one builds a better fire

MEZZO

You've never experienced modern design like this. Clean. Discreet. Luxurious. In 2 sizes, with a see-through model also available. Define your design with a variety of finishing options. We spared nothing, to give you everything. It's modern design, redefined.

Details matter. Every corner, every edge and every element of the MEZZO is all about perfection. Flames, lights, reflections and warmth combine to elevate the senses. A black glass interior adds depth and intensity to the fire. So captivating, we dare you to take your eyes off of it.

SLR-X

Warmth, ambiance and chic contemporary detail. An experience only the SLR-X can provide. A linear design and long ribbon flame form a broad, hypnotic firescape. Several finishing options create a fundamentally modern look for any space while a standard fan circulates the heat.

Reap the benefits of form and function. Clean lines and elegant ambiance never go out of style.

Create a mood so cool, it's hot. A reflective glass liner radiates the fire and intensifies the flame.

3X

With its slim profile the 3X model fireplace offers a variety of installation possibilities with innovative venting options. Featuring a stunning high definition log set and LED ember accent lighting the 3X is a compact and versatile heater that will suit any living space.

Utilizing only a 21mj gas input, the 3X is the ultimate economiser and is ideal for apartments, hotels, homes, townhouses, office reception areas, boardrooms, where conventional chimneys cannot be constructed.

FEATURES

- High Definition log set
- LED ember accent lighting
- 3 speed fan for powerful convection heating
- Intellifire remote for flame height, fan speed and LED light functions
- Optional glass liners for a deeper firebox appearance
- Top or rear balanced flue venting for versatile installation
- Zero clearance installation
- Available on natural or LPG gas

Garden Entertainer by Cadence & Co

5X

Classic sleek lines and an impressive flame, the 5X model fireplace has become one of Australia most popular.

Similar to its smaller 3X counterpart the 5X model offers the same stunning aesthetic but in a bolder more powerful chassis.

Available with two front options, the Firescreen front for that classic look or the Clean Face front for a discreet flush appearance the 5X model offers a timeless aesthetic.

FEATURES

- Two front options, Firescreen or Clean Face
- High Definition log set
- LED ember accent lighting

6KX

A remarkable balance of flame, glow and ambiance, the 6KX offers the look and feel of a traditional fire with design-forward technology.

You'll enjoy a luxury fireplace feel with the exceptionally large viewing area. The premium true-to-life logs above the glow of an appealing ember bed are so realistic, your friends may ask to add another log to the fire.

All this and more will quickly make a place in front of this fire your favorite spot in the house.

Whether your home is traditional, modern or transitional, the 6KX gas fireplace has a style to suit you.

I25-X INSERT

You don't have to sacrifice the warmth and glow of a wood burning fireplace for the simplicity and ease of gas.

No more drafty, dated fireplace with messy maintenance, soot and smoke.

Heat & Glo gas inserts fit inside an existing masonry or manufactured wood burning fireplace, providing an instant upgrade.

Warm up to greater performance, safety and convenience.

i30-X INSERT

The ultimate insert for your existing fireplace, the i30-X features all the benefits of balanced flue technology and efficient space heating with a stunning high definition log set.

Dual flexi flues ensure a simple installation with one flue drawing air from outside for combustion and the other flue expelling the fumes.

This completely airtight fireplace allows for brilliant indoor air quality.

Choose from a range of décor finishing options including 3 and 4-sided black trims or a range of mantelpiece and fascia options to suit either a traditional or contemporary aesthetic.

The i30-X can also be built into brick or hebel as a new fireplace application.

OPTIONAL EXTRAS INCLUDE:

- Ambient accent lighting
- Glass reflective liners
- Brick refractory liners

I25-X FREESTANDING

The I25-X is also available in a space saving freestanding design, with 2 base options to choose from.

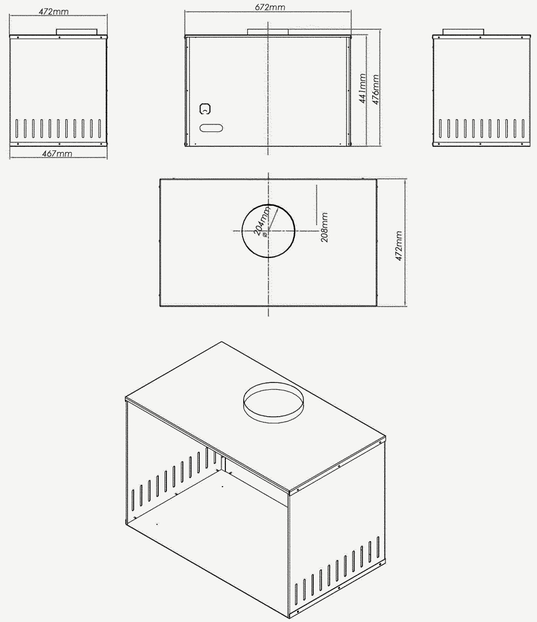
The I25-X firebox is enclosed in a minimalistic mild steel casing designed to give less frame and more flame. The matching flue and casing feature a powder coated finish that allows worry free cleaning.

The freestanding I25-X Linear or Stretch pedestal bases have modern design in mind with clean lines and an elevated view of the fire and beautifully crafted high definition logs.

OPTIONAL EXTRAS INCLUDE:

- Glass reflective liners
- Brick refractory liners

All Heat & Glo fires are provided with a standard anti reflective mesh safety screen and can operate on natural gas or LPG bottle gas.



I30-X FREESTANDING

The i30X is also available in a space saving freestanding design, with 2 base options to choose from.

HEAT&GLO

Heat & Glo is fuelled by innovation and driven to prove “No One Builds A Better Fire”. The brand was founded in 1975 in a small Minnesota garage by brothers Ron and Dan Shimek. In 1987, Heat & Glo introduced Balanced Flue technology — forever changing the way fireplaces function.

Much has changed since the beginning. Yet much remains the same. One part innovation. One part application. With an eye toward design and innovative technologies, Heat & Glo continues on an endless pursuit; pushing the boundaries of where fire can go and how it can look.
